RE: Wilcox Oil Superfund Site, Bristow, Creek County, Oklahoma

Dear Mr. Nixon:

I am writing on behalf of ConocoPhillips Company and in response to the Information Request regarding Wilcox Oil Superfund Site ("Site") received April 26, 2013. Thank you for your courtesy in granting us an extension through June 24, 2013, to respond to the information request.

On May 1, 2012, ConocoPhillips separated into two independent publically traded companies. The "upstream" (oil and gas exploration and production) entities, assets and liabilities remained with ConocoPhillips and the "downstream" (product refining, shipping and marketing) entities, assets and liabilities were transferred to a newly created entity named Phillips 66. ConocoPhillips has provided the Information Request to Phillips 66 and they will also respond. As this matter involves a downstream asset (a refinery), any future correspondence should be directed to Phillips 66.

ConocoPhillips Company has made a search of its records and conducted an investigation of its involvement with the Site. As you will see in ConocoPhillips Company's attached response, the pre-separation upstream assets of ConocoPhillips Company have no contact or involvement with the subject Site.

Please direct any further communications regarding this Site to Stacey Carter, HS&E Legal Specialist, ConocoPhillips Company, ML 1020, 600 North Dairy Ashford, Houston TX 77079, Phone 281-293-1579.

Sincerely,

Mark A. Aebi

4. Identify any legal or equitable interest that you now have, or previously had in the Site. Include information regarding the nature of such interest; when, how, and from whom such interest was obtained; and when, how, and to whom such interest was conveyed. In addition, submit copies of all instruments evidencing the acquisition or conveyance of such interest.

None.

ConocoPhillips Company has conducted a search of its records, as well as various secretary of state corporate business records and other publically available documents and has not discovered any documentation or information linking it or its predecessor companies in interest to the Site or Continental Refining Company, an Oklahoma corporation.

5. List all names under which your company or business has ever operated and has ever incorporated.

For each name provide the following:

Whether the company or business continues to exist, indicate the date and means by which it ceased operations (e.g., dissolution, bankruptcy, sale) if it is no longer operational, and provide documents detailing the transaction.

ConocoPhillips Company specifically objects to the question on the grounds that it seeks information that is irrelevant, overbroad and unduly burdensome.

Subject to and without waiving the foregoing objection, ConocoPhillips Company is a wholly owned subsidiary of ConocoPhillips. ConocoPhillips is the ultimate

parent company and owns 100% of ConocoPhillips Company. ConocoPhillips Company is the parent of most current subsidiaries of ConocoPhillips. There are hundreds of entities that are directly or indirectly owned by ConocoPhillips Company or its predecessors in interest. Providing specific information for each of those entities would be unduly burdensome. Therefore, ConocoPhillips Company is focusing the scope of its investigation on any connection to Continental Refining Company, an Oklahoma corporation.

ConocoPhillips was formed in 2002 with the merger of Conoco Inc. and Phillips Petroleum Company. Conoco Inc. operated as Continental Oil Company from 1929-1979, when it changed its name to Conoco Inc.

Continental Oil Company was incorporated on December 11, 1916, as the Elk Basin Petroleum Company, in the state of Maine. In April, 1924, the name of the entity was changed to Continental Oil Company and it remained a Maine corporation. Subsequently in June 1929, Marland Oil Company, a Delaware corporation, acquired the stock of Continental Oil Company, a Maine corporation, and at the same time changed its name to Continental Oil Company, a Maine corporation, see attached June 20, 1929 merger/name change document, Exhibit A.

6. Please identify the organizational relationship, if any, between ConocoPhillips and Continental Refining Company and Continental Oil.

None.

On January 1919, the Continental Petroleum Company, a Delaware corporation, was formed as an affiliated entity to Continental Refining Company, an Oklahoma corporation, see exhibit B. We have found no relationship between the individuals who formed Continental Refining Company, an Oklahoma corporation, or Continental Petroleum Company, a Delaware corporation, and ConocoPhillips Company or its predecessors in interest.

ConocoPhillips Company has conducted a search of its records, as well as various secretary of state corporate business records and other publically available documents and has not discovered any documentation or information linking it or its predecessor companies in interest to Continental Refining Company, an Oklahoma corporation or Continental Petroleum Company, a Delaware corporation.

The relationship between ConocoPhillips Company and Continental Oil Company, a Maine corporation, is explained in the response to Question 5.

7. During the ownership period of approximately 1916-1923, what were the business operations at the Site?

Unknown.

Predecessors to ConocoPhillips Company never operated the Site.

8. During the time of ownership, did Continental Oil operate an oil refinery?

Continental Oil Company, a Maine corporation, owned and operated the six refineries listed below at the time of the merger with Marland Oil Company in 1929.

REFINERY	CAPACITY	TYPE
Florence, Colorado	2,500	Skimming, cracking and lubricating
Glenrock, Wyoming	10,000	Skimming and cracking
Wichita Falls, Texas	6,000	Skimming and cracking
Sapulpa, Oklahoma	10,000	Skimming, cracking and lubricating
Artesia, New Mexico	1,500	Skimming
Farmington, New Mexico	750	Skimming

What products were produced?

See chart above.

What was the volume of production?

See chart above.

9. Please provide the names of any other entities that shared an interest in the refinery during Continental Oil's ownership of the real property. Provide also the supporting documentation.

Unknown.

10. Please provide the names of any other entities that operated at the Site during Continental Oil's ownership. Provide also the supporting documentation.

Unknown.

11. What, if any, relationship was there between Continental Oil and the following entities:
Bristow Oil and Refinery, Lorraine Refining, Interocean Oil Company, Producers Oil Company, Bolin Oil, and Wilcox Oil Company?

ConocoPhillips Company has conducted a search of its records and found no documents or information relating to any relationship between ConocoPhillips Company or its predecessor in interest with Bristow Oil and Refinery, Lorraine Refining or Interocean Oil Company. ConocoPhillips Company predecessors had minimal arm's length relationships with Wilcox Oil Company, Bolin Oil and Producer Oil Company, primarily the buying and selling of oil and gas production leases. None of these arm's length relationships involved the Site or even the refinery industry.

12. If any of the documents solicited in this information request are no longer available, please indicate the reason why they are no longer available.

ConocoPhillips Company has made a search of its records, as well as various secretary of state corporate business records and other publically available documents. It is unknown what documents may no longer be available.

CONTINENTAL OIL COMPANY

History

The Continental Oil Company, a Maine Corporation, the outgrowth of a number of mergers and acquisitions which have taken place during the past nine years, was incorporated December 11, 1916, as the Elk Basin Petroleum Company, in the state of Maine.

ming

On December 19, 1919 the Company acquired the majority of the capital stock of the Keoughan-Hurst Drilling Company and the Grass Creek Petroleum Company, which companies have subsequently been dissolved and their assets and liabilities merged with the parent company (Continental Oil Company, Maine).

In January, 1920, the company authorized a change of name to the Elk Basin Consolidated Petroleum Company, and during that year acquired the outstanding capital stock of the Mutual Oil Company, a Maine Corporation, and its subsidiaries, as also the capital stock of the Frantz Corporation. In December, 1921, the Company authorized a change of name to the Mutual Oil Company.

During the year 1922, the Company acquired the majority of the outstanding capital stock of the Western Oil Fields Corporation, which has since been dissolved and its assets and liabilities merged with the parent company

In the same year the company acquired the majority of the capital stock outstanding of the Boston-Wyoming Oil Company and the Chappell Oil Company, at present subsidiary companies.

In January, 1923, the company acquired the majority of the capital stock outstanding of the Hamilton Oil Corporation, which has since been dissolved, and of the Merritt Oil Corporation which still exists as a subsidiary.

In January, 1924, the company acquired the majority of the capital stock outstanding of the Continental Oil Company (Colorado) and its subsidiaries, and in March of the same year the company acquired a majority of the capital stock of the Sapulpa Refining Company, an Oklahoma corporation. The Continental Oil Company (Colorado) has since been dissolved.

On April 1, 1924, the company authorized a change of name to the Continental Oil Company (Maine); and changed its authorized issue of capital stock to 5,000,000 shares of \$10 per share per value.

In January, 1928, the Company acquired the majority of the capital stock of the Texhoma Oil & Refining Company, and in October of that year the name of this subsidiary was changed to the Continental Oil Company (Texas). This company has subsequently been dissolved and its assets and liabilities marged with the parent company.

The company operates as a complete unit, in the oil industry, and engages in the production, transportation and refining of crude perroleum, manufacturing of casinghead gasoline and marketing of its products both through wholesale distribution and directly to the public through its owned stations.
